DESIGN | ARCHITECTURE | INSPIRATION

### COASTAL VIBE

"I adore the coastal cottage aesthetic, especially the bamboo detailing on the furniture painted in bright colors. The white bead board is an instant call to the coast, while a ledge on top provides a clever way to display photos and accessories. It's casual and fun."

### PRACTICAL BUT ELEGANT

"This hers master suite closet features a three-way mirror that is created once all three mirrored doors are opened. The built-in dresser has a marble countertop with a mirror above and crown molding accents throughout. The large doors on the right conceal a full size safe!" |AH
